## TIMING SOLUTIONS

### **6200DS - Double Sided Wall clock**

#### **Features**

- 300mm white plastic cased wall clocks with shatterproof front lens
- white dial with 12 hour markings and minute track printed in black
- Fitted to a centre bracket suitable for ceiling or wall mounting
- Dimensions 300mm diameter x 85mm deep, bracket length 405mm overall
- Weight 1600 gm
- Viewing distance up to 30 metres
- Also available with a 420mm diameter size for wall and ceiling mounting

#### **Movements**

- 1 minute slave clock movement for hard wired clock systems
- AirTime 868 wireless clock system mains powered movements
- Battery operated Quartz

#### **Care & Maintenance**

We advise the clock to be wiped down with a clean slightly damp cloth at least with every summer/wintertime change and that a battery change is factored in on one of those occasions.
